

Hello Team,

I am Ujwala Poojari, a learner with every click of the shutter.

Photography for me is about freezing moments that moves, even when you look after years. Element that I look to capture are the emotions and a complete story in one frame.

I am a part time Consultant working for an I.T Company. Photography is my passion and doing projects as it comes my way. Will transit into photography completely some day.

In the portfolio I am sending only few of my street shots.

I also cover landscape and few weddings.

Regards,

Ujwala Poojari
