

Biography

Hello, my name is Socorro Arredondo, I am Mexican born in the state of Guanajuato. I am a graphic designer, photographer and watercolorist.

6 years ago I started a women's collective named Tlahuistli. I work analog and digital photography, ancient and experimental processes.

As a photographer I am versatile in the subjects, I like portraits, landscapes, product photography, animals, I do not fit into a single style.

I have exhibited photographs in various museums in my state and I also have publications in magazines and in 3 books. I believe that photography is infinite in its work and that young people can find a wealth of blessings in this practice.
