I was born on March 6<sup>th</sup> 2003 in Tbilisi, Georgia. From 2009 to 2021 I was studying in Robert Schuman European School. I was participating in a TV show “Book Shelf” from 2019 to 2020. In this period of time I started reading more. After graduating from high school I started studying literature in Ilia State University. Currently I am 3<sup>rd</sup> year student in Ilia State. In April 2023 I started working in Georgian Literature Museum, as curator of the manuscripts aid fund. Literature is my main profession, but photography is also my passion. I’m interested in feminist literature mainly and in photography I’m also trying to focus on women.

I started taking photos as a hobby in 2022, with a film camera. Now I’m trying to learn more about photography. Recently I started taking portraits of women.
