Biographical Note:

Piedad Lorena Guerrero Coka was born in Colombia, studied visual arts in Colombia, made a specialization in pictorial production and new media and is finishing a master's degree in contemporary Latin American arts.

I start doing my performances in 2008 experiencing with my body the different forms of expressions with the body.

Since 2015, when I moved to Buenos Aires, I started doing street actions showing my body and interventions of disappearances of women and indigenous.

At the same time I started working on body resistance from the slow processes and recognition processes with our body Letting each of our thoughts be recognized as an extension of the body.

Walking is part of the body's resistance from the resistance of observing ourselves in slowness and our own breathing reaching a trance with our environment, called body territory.
